Presented by: HUB INTERNATIONAL N E LLC

The diagram shows a circular structure with a central core. The core is a small, dark, circular region. Surrounding the core is a larger, lighter-colored region. The outer boundary of the structure is irregular and jagged, resembling a cell membrane or a rough surface. There are several small, dark, circular spots scattered within the lighter region, possibly representing internal organelles or molecules. The overall shape is roughly circular but with some asymmetry.

IMPORTANT INFORMATION FOR MASTER PAC POLICYHOLDERS

Dear Policyholder:

Enclosed is your Travelers Master Pac Renewal Certificate. An asterisk on the Listing of Forms, Endorsements and Schedule Numbers, IL T8 01, indicates forms that are included with this year's renewal. Any forms previously attached to your policy that are not shown on that listing no longer apply.

Please put the Certificate and the attached forms with your policy as soon as possible. If you have misplaced your policy, please contact your agent for a copy.

To Our Valued Customer,

Each year, homeowners and business owners across the nation sustain significant weather-related property damage due to floods. These can include losses caused by waves, tidal waters, the overflow of a body of water, the rapid accumulation or runoff of surface water, and mudslide. In nearly all cases, these flood losses cannot be prevented or even anticipated. And, in many instances, the losses are devastating.

Most standard property insurance policies, including most of our policies, do not provide coverage for flood losses. While flood coverage is often available – primarily through the National Flood Insurance Program – it is rarely purchased. Unfortunately, each year we find that some policyholders are surprised and disappointed to learn that damages they have suffered as a direct result of flood are not covered under the policies they have purchased.

Please review your insurance coverage with your agent or Company representative. As you consider the need for flood insurance, keep in mind that floods can, and do, occur in locations all over the country. They are not limited to coastal areas or locations with nearby rivers or streams. Several inches of rain falling over a short period of time can cause flood damage, even in normally dry areas that are not prone to flooding.

Your agent or Company representative can help you assess your risk. They can provide you with information on flood insurance available through us, including our "Write Your – Own-Flood" program, which enables agents to write flood insurance through the National Flood Insurance Program. Your agent or Company representative can help you assess your risk.
